Pain Points Research

Do you experience whopping energy bills in any of the following electrical utilities?

- Electric Motors
- Compressed Air System
- HVAC System
- Refrigeration System
- Fans and Blowers
- Pumps and Pumping System
- Cooling Towers
- Lighting System
- DG Power Generating System
- Building and Commercial Spaces

Do you experience inefficiencies & so the rising costs in running any of the following thermal utilities?

- Boilers
- Steam System
- Fuels and Combustion
- Furnaces
- Insulation and Refractories
- Cogeneration
- Waste Heat Recovery
- Heat Exchangers

Our Pitch

We are right there to help you. We offer perfect energy saving solutions (EnergyIQ) to reduce your bills by minimum of 20%.

Let's discover!

Who We Are

We are a pool of technologists having over three decades of experience in unit processes, operations, energy management in chemical and manufacturing industries.

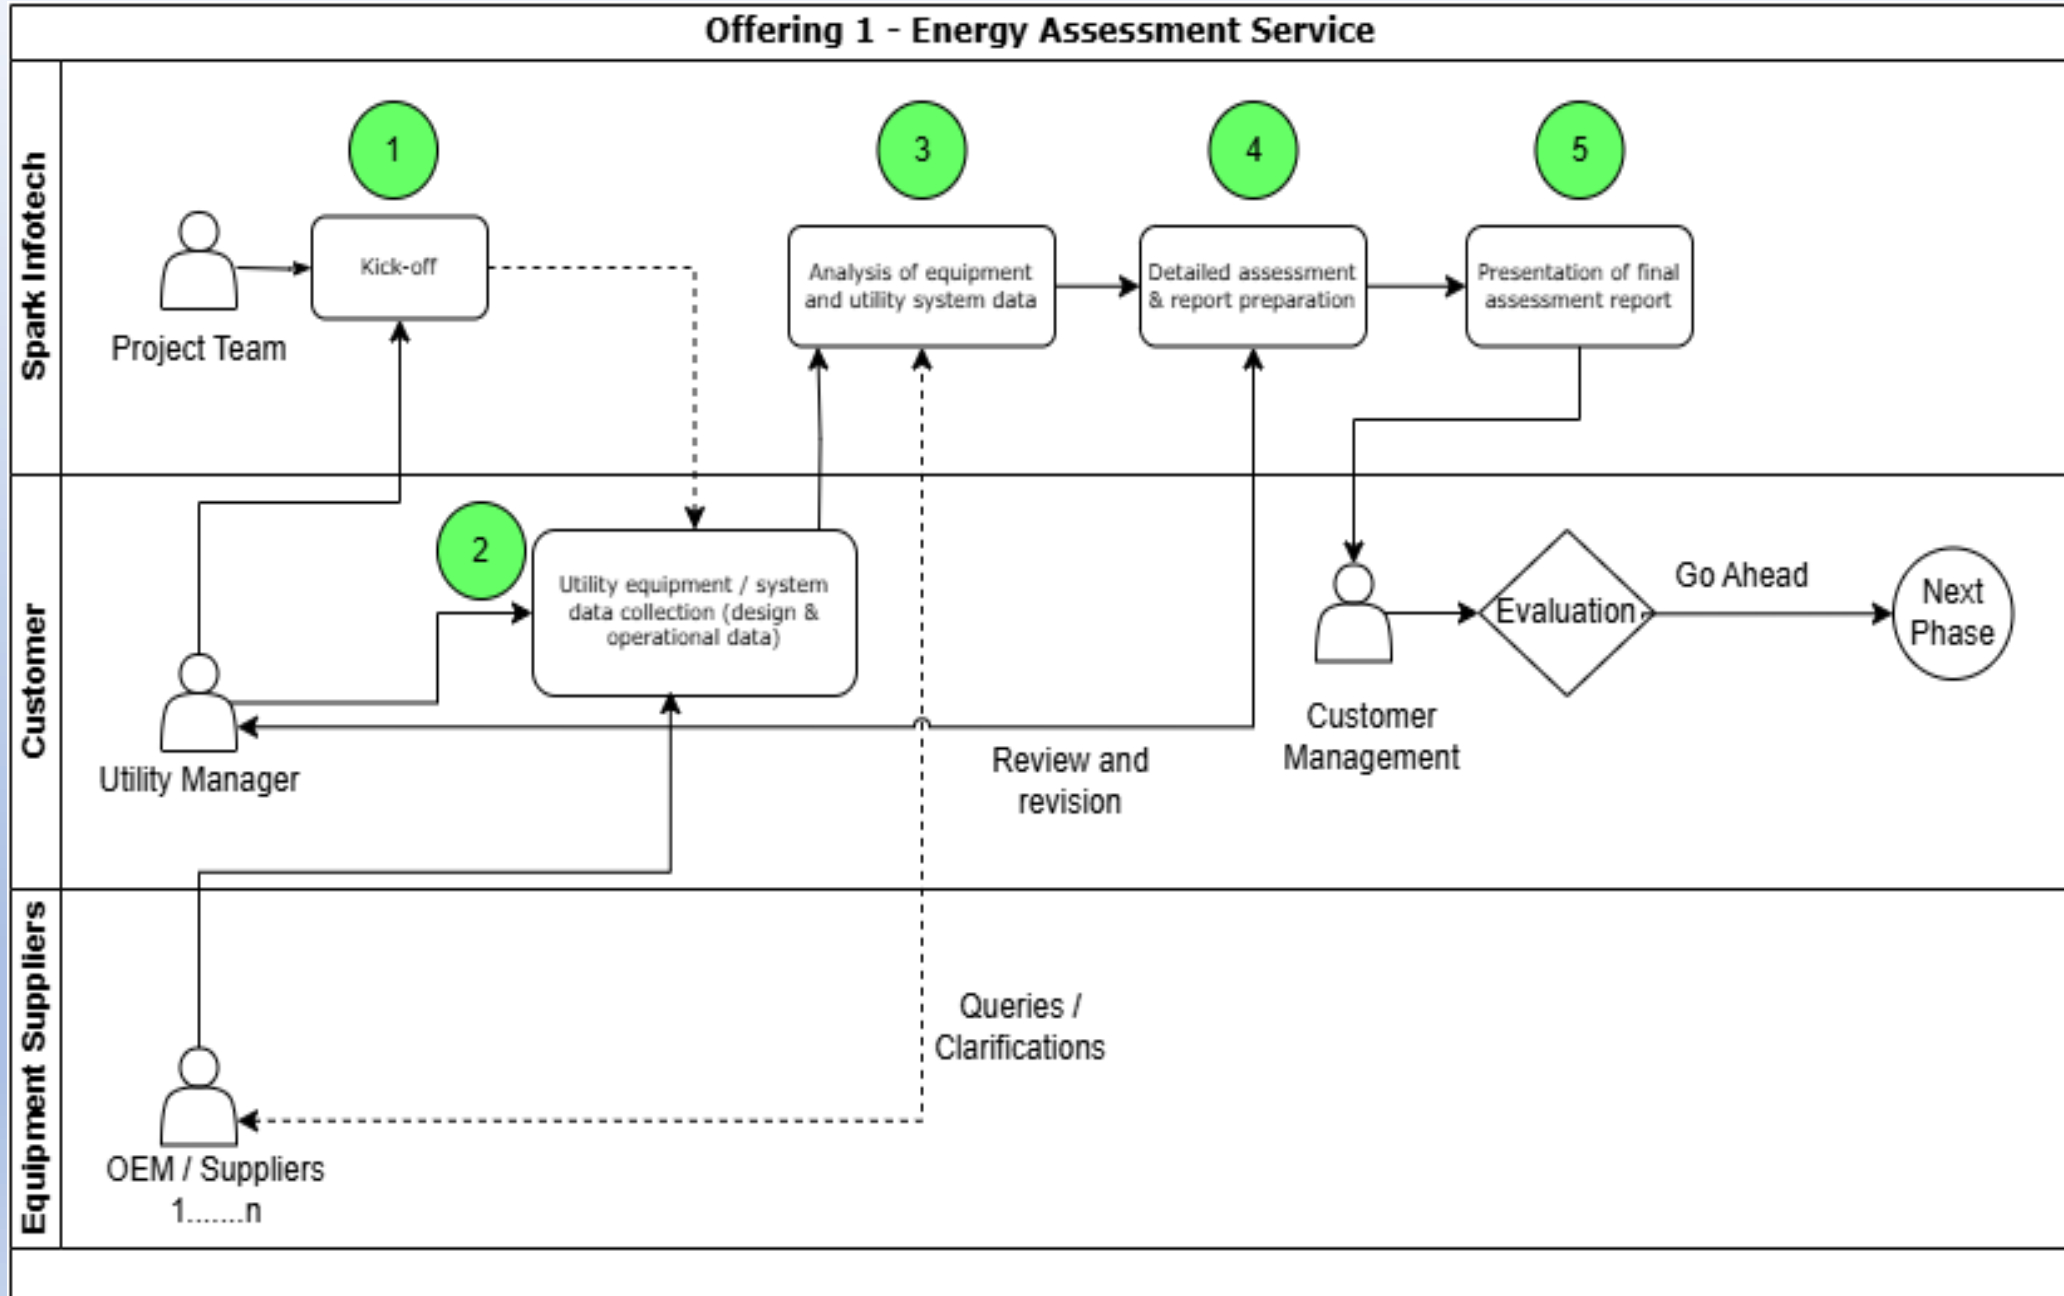

We are a pool of certified IT professionals experienced in Cloud, IOT and AI powered solutions.

We assess and help implement energy efficiency and carbon reduction missions.

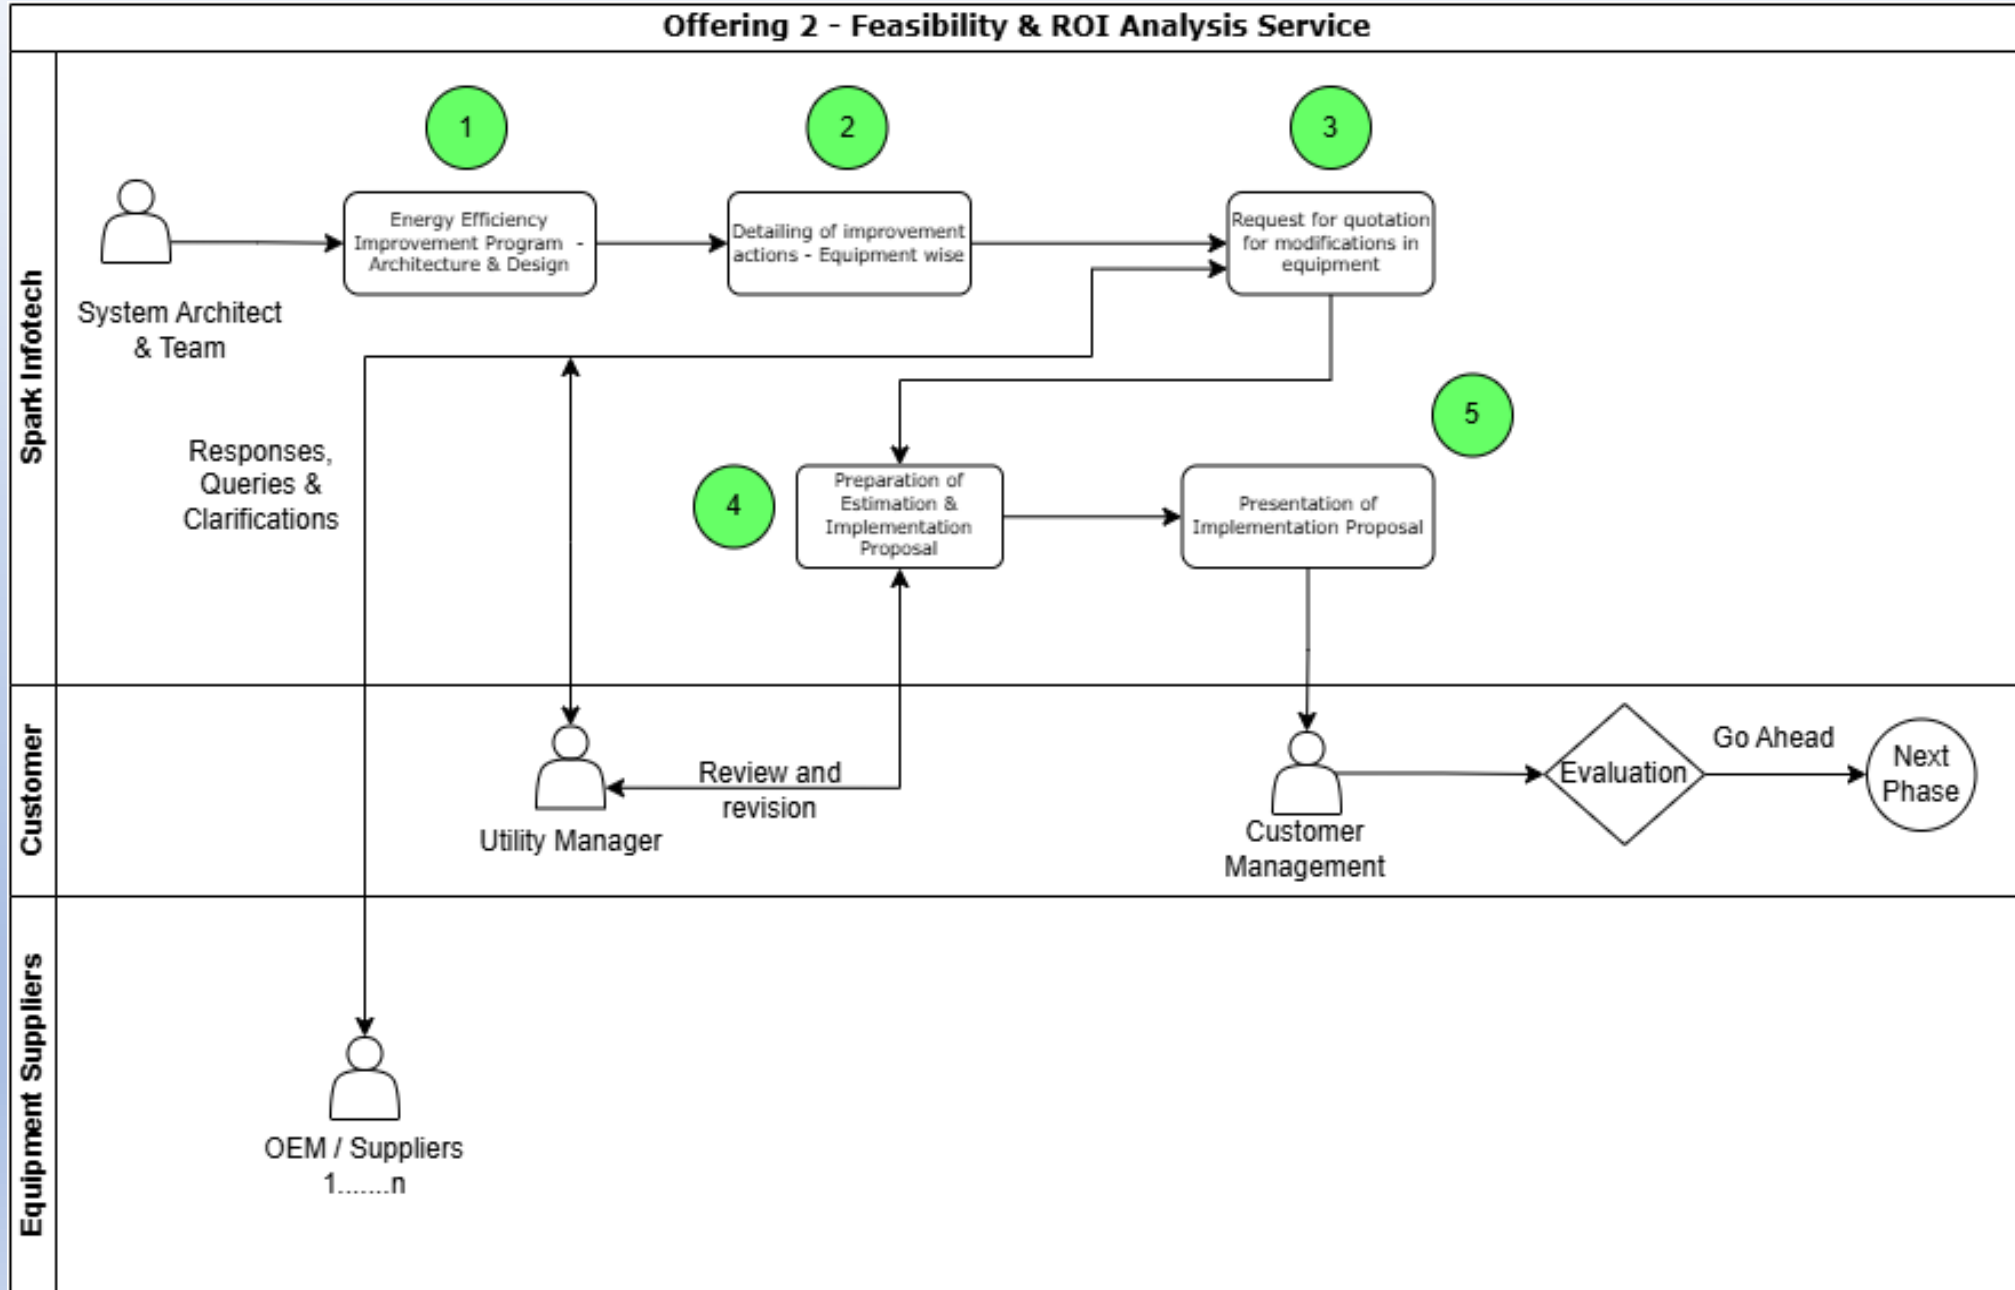

Our Services

Energy Assessment	Feasibility & ROI Study	Energy Efficiency Implementation Support	Cloud Monitoring
✓ Detailed Assessment Report	✓ Detailed Assessment Report	✓ Detailed Assessment Report	✓ EnergyIQ - Cloud based IOT system for devices monitoring
✓ Energy Efficiency Goal Setting	✓ Energy Efficiency Goal	✓ Energy Efficiency Goal	✓ Software support
	✓ EE architecture & design	✓ EE architecture & design	
	✓ Detailed EE improvement actions	✓ Detailed EE improvement actions	
	✓ EE implementation ROI proposal	✓ EE implementation ROI proposal	
		✓ Support for engineering orders finalization	
		✓ Cloud based system monitoring software	
		✓ FREE software support for 1 year
